UI/UX Principles:

EXPERIENCE

Frontend Developer (Self-Driven Projects)

Remote

Jan 2024 – Present

- Developed 10+ web apps using React, Next.js, and Tailwind CSS, focusing on performance and clean code
- Integrated REST APIs and ensured SEO optimization and accessibility compliance
- Collaborated with open-source communities to refine UI components

Freelance Web Designer

2023 – Present

- Designed and deployed client websites with mobile-first, responsive layouts
- Improved page load speeds by 30% via image optimization and lazy loading

PROJECTS

University Website

github.com/AlfishanShaikh/university-site

- Built a responsive university site with HTML, CSS, and JavaScript
- Implemented accessible navigation and SEO-friendly structure

Netflix Clone

github.com/AlfishanShaikh/netflix-clone-html-css

- Replicated Netflix's UI using CSS Grid/Flexbox and modern animations
- Achieved pixel-perfect design parity with the original

EDUCATION

Bachelor of Computer Applications (BCA)

Maulana Azad College, BAMU

Aug 2023 – May 2026 (Final Year)

- Relevant coursework: Data Structures, Web Technologies, DBMS

CERTIFICATIONS

Google Cloud: Introduction to Generative AI
